Subject: Dimock - Week #2 Residential Data Summary Reports for Your Review

I have attached PDFs of the 20 locations sampled during week #2 (1/30/12 - 2/3/12). Please note that while the data has been validated and is considered final, we are still in the process of finalizing the data summary reports. I understand that you will be providing additional support in terms of data review prior to release to the public. Please be sure to limit the distribution of these reports to an internal review as we have not yet shared the data with residents or with PADEP.

Please note that we are aware that in many cases the established "trigger levels" are lower than the actual detection limits. The R3 tox is taking this into account in her review. We will be prepared to answer questions regarding this issue as they come up during our meetings with residents. In addition to the data summary reports, I have also included a spreadsheet listing the trigger levels established, to date. A key to the data report is also included.

Please feel free to contact me with any questions and/or if you need additional info.

Thank you - Kelley
